

Akib Ali

React Developer | Frontend Engineer

PROFESSIONAL SUMMARY

Frontend-focused developer with 2.5+ years of experience in building scalable web applications using React.js, Next.js, Redux, and JavaScript (ES6+). Skilled in creating reusable components, state management, and API integrations. Eager to contribute expertise in the React ecosystem to deliver impactful user experiences and drive innovation.

EXPERIENCE

Udaan Technologies Pvt. Ltd , Indrapuram (Ghaziabad)— *Software Engineer ([React.js](#))*

March 2025 - Current

Worked as a Frontend Developer focusing on **React.js, Next.js, Redux, and JavaScript (ES6+)** to build scalable web applications. Responsibilities included creating reusable components, implementing state management, integrating REST APIs, and collaborating with backend teams for smooth data flow. Also optimized performance for faster load times and contributed to delivering high-quality features within Agile development cycles.

Invoxico Technologies, Mohali (Chandigarh)— *Software Developer ([React.js](#))*

Aug 2023 - Sep 2024

Worked on developing and maintaining web applications using **React.js, Next.js, JavaScript (ES6+), and modern frameworks**. Built a complete **E-commerce website with an admin panel**, including features like product management, authentication, and API integration. Also contributed to database management, performance optimization, and collaborated with cross-functional teams to deliver scalable solutions.

EDUCATION

Diploma in Information Technology | Government Polytechnic, Ghaziabad (BTEUP) 2016 – 2019

12th | UP Board | 2015

Completed senior secondary education with a focus on core subjects

10th | UP Board | 2013

Achieved foundational academic knowledge and essential skills.

Full Stack Web Development

Certificate | [Masai School](#) , Bangalore

Acquired expertise in React.js, Next.js, Node.js, Express.js, and MongoDB, along with strong foundations in HTML, CSS, and JavaScript (ES6+). Gained hands-on experience in building full-stack applications, API integration, authentication, database management, and performance optimization while working on real-world projects.

Axionic Software Pvt. Ltd, Yamuna Nagar

(Haryana)— Software Developer (*Mern Stack*)

Aug 2022 - Aug 2023

Developed full-stack web applications using **React.js, Next.js, Node.js, Express.js, and MongoDB**. Built a complete **E-commerce platform with admin panel**, including product management, authentication, API integration, and database optimization

SKILLS

Proficient in: React.js, Next.js, Redux, JavaScript (ES6+), TypeScript, HTML, CSS, Tailwind CSS, Bootstrap.

Backend & Database: Node.js, Express.js, MongoDB, Mongoose, REST APIs, Authentication (JWT).

Tools & Version Control: Git, GitHub, Postman, Vercel, Netlify

additional: Familiar with API integration, and deployment workflows.

PROJECT

Nanhe Kiskey :

Summary: An AI-powered storytelling application built with **React.js**. Developed the complete frontend and backend system with features like story creation, management, and user interaction..

Malance (Health Website):

Summary: A health-focused website built with **Next.js and React.js**. Implemented **Resend mail service** for user communication, integrated APIs for dynamic features, and developed a clean, responsive interface to improve user experience.
